About Me

I've graduated in 2021, Bachelors of Computing. Coding is my passion, in any shape or form. The concept of just taking an idea and making it a reality, whether it is a website or an app. I always aim to please people who require my help or assistance. I am looking to work for a company that will help me develop and build upon my skills.

- Node.js
- Database Development
  - Microsoft SQL Server
- Android Development
  - Android Studio/Eclipse
  - Java
  - Database access and data manipulation to SQL Server
- Delphi

WORK EXPERIENCE

Industrial Web Technologies – Junior Asp.net Developer – December 2019 till Present

During my internship year I worked as a Junior Developer where I worked on multiple websites that were hosted by the company. My tasks were developing custom features for our websites that would either be used by our staff or for users. My tasks also involved fixing existing bugs and/or enhancing existing features. During my employment I also managed our server, increased performance of our websites and deployed new code to our production server.
